Celebrating UNESCO World Teachers' Day 2026

Proud to Be a UNESCO School

Sendai Daisan High School continues to proudly uphold its status as a **UNESCO School**, fostering global citizenship, intercultural understanding, and sustainable development among our students. As part of our ongoing commitment to these values, we look for meaningful ways to engage our school community in global observances and appreciation of one another.

Commemorating UNESCO International World Teachers' Day (October 5, 2026)

To commemorate **UNESCO International World Teachers' Day** on October 5, 2026, a special activity was launched on **Google Classroom**. Students were invited to participate by writing posts dedicated to their favourite teachers—sharing stories, gratitude, and reflections on the educators who have made a lasting impact on their lives and learning journeys.

A Resounding Response from Students

The response to the Google Classroom post was truly resounding! Students flooded the platform with heartwarming submissions, demonstrating incredible enthusiasm and active participation.

The students' posts were:

- **Meaningful:** Highlighting core values of mentorship, guidance, and academic inspiration.
- **Insightful:** Offering thoughtful reflections on how teachers shape character and resilience.
- **Personal:** Featuring touching personal anecdotes and sincere expressions of gratitude for individual educators.

Special Recognition: ALT Gertrude's Dedicated Engagement

A special highlight of this activity was the dedication shown by our Assistant Language Teacher (ALT), **Gertrude**. Taking the time to deeply connect with the students, Gertrude personally responded to **every single student's post (more than 100 students in total!)**, offering encouraging words, fostering dialogue, and celebrating the strong bonds within the Sendai Daisan High School community.

Thank you to all students who participated and made this World Teachers' Day commemoration a memorable and heartwarming success! Let us continue to cherish and support the educators who guide us every day.

From Students' Posts

The teacher that has impacted me a lot was math teacher in junior high school. His teaching was very great. Thanks to him, I was able to achieve math ability.

1839 • Oct 5

My favorite teacher who inspired me most is in junior high school. She was my math teacher. I didn't like math when I was an elementary school student. But, thanks to her I was able to enjoy math when I was a junior high school student. Now, I meet her every morning while I go to Sendai Sanko.
